Subject: Fw: Dimock results

The obvious question given the vague nature of the statement. Any thoughts?

Hi David, do you have an estimated time when you would be notifying homeowners? Would it be this week? That's what AP is reporting.

Susan,

EPA expects to begin receiving validated results of water samples from labs in the near future. Once that information is received we will determine next steps in coordination with the state, with the first important step being sharing relevant information with homeowners. Once we have notified the homeowners, we will share a summary of the information with the interested public.

Hi David, I'm checking in to see if EPA has finished their Dimock water tests and when you're planning to release them. Please let me know if you have any info. Thanks.
